## DETAILED ACTION

### *Claim Rejections - 35 USC § 103*

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-2 are rejected under 35 U.S.C. 103(a) as being unpatentable over Lander [US 4,476,469].

Regarding claims 1-2: Lander discloses a system for locating lost or misplaced items, comprising: -a transmitter unit (2) for attachment to the item to be located; the transmitting unit including a light emitting diode (132) and an emitting audible sound signal (130), and a DC power source (battery 22) [see Fig. 1-4, col. 3, lines 22-29 and 60-65],

-a pager unit (50) for mounting to a wall surface, having a manually operable push button (52) that upon actuation transmits a signal to the transmitter unit (2) thereby activating the light emitting diode and the buzzer or speaker so that the item can be located [as shown in Fig. 6, col. 4, lines 67-68 and col. 5, lines 1-20]. It would have been obvious to implement the sound emitter using a buzzer or speaker.

### *Conclusion*

1. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Mickel et al. [US 5,790,021], Mardirossian [US 5,796,338], Renney [US 5,939,981],
